NASA SEWP VI

Solutions for Enterprise-Wide Procurement

Contract Holder

SEWP VI OVERVIEW

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors. Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved for more than 30 years, expanding its scope to meet the requests of its customers. The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support - more than 50,000 orders a year.

FAIR OPPORTUNITY

FAR 16.505(b) (1) provides that each contractor shall be given fair opportunity to be considered for each order exceeding the micro-purchase threshold currently $15,000 and issued under multiple award contracts. The FAR states that the method to obtain fair opportunity is at the discretion of the Contracting Officer (CO) and that the CO must document the rationale for placement and price of each order. Using the SEWP online Quote Request Tool (QRT) is the recommended method to assist in this activity and to augment the required decision documentation. The SEWP QRT will automatically include the contract holders within a selected Category, or based on a suggested source.

ABOUT ENVISION INNOVATIVE SOLUTIONS, INC.

Envision Innovative Solutions, Inc. (Envision) provides C5ISR integration, systems engineering, program support, software modernization and post deployment support, AI/XR (AR/VR/MR), tactical communications, avionics, and air traffic control systems support.

WHAT'S IN SCOPE FOR SEWP VI?

SEWP VI is designed to provide a broad suite of Information Technology, Communication and Audio Visual (ITC / AV) solutions and services. Technology is ever-evolving, and for that reason SEWP VI's processes enable Contract Holders to add new commercial technology and IT services to their contract daily, as requested by customers. The focus of SEWP VI is on the full suite of technology offerings that simplify Governmental access and industry offerings across the entire ITC/AV solutions and services landscape. Envision holds SEWP VI contracts in two scope categories. If you would like SEWP to determine if your requirement is within scope of the SEWP VI contract, please send an overview and/or bill of materials (BOM) to help@sewp.nasa.gov and the SEWP Program Office will quickly review and provide feedback.

Envision's SEWP VI Contracts were awarded by scope category as follows:

- Category B – Enterprise-Wide ITC/AV Service Solutions
- Category C – Mission-Based ITC/AV Service Solutions

CATEGORY B

Enterprise-Wide ITC/AV Service Solutions
Small Business Set Aside

CATEGORY C

Mission-Based ITC/AV Service Solutions
Small Business Set Aside

ORDERING PROCESS

The internal ordering process of each Agency varies. The process and accompanying forms for Purchase Requests (PR) and Delivery Orders (DO) that are issued against a SEWP VI contract are defined by the issuing Agency, not the NASA SEWP VI Program Management Office (PMO). The typical process is for an end-user to determine a requirement and generate a Purchase Request (PR).

The PR along with any necessary funding information is sent to that Agency's procurement office which results in the issuance of a DO. Any valid Federal Agency DO form, and the associated Delivery Order number may be used. The NASA SEWP Program Management Office (PMO) does not issue DOs – these must be issued through the issuing Agency's procurement office. The SEWP Program Management Office (PMO) reviews, processes and tracks issued DOs and forwards them to the Contract Holder(s).

Some Agencies have special requirements for issuing IT Delivery Orders. It is the Issuing Agency's Contracting Officers' (COs/KOs) responsibility to be aware of any Agency-specific policies regarding issuing orders via an existing contract vehicle and Government-Wide Acquisition Contracts. There are no requirements under the SEWP Contracts for issuing Agencies to use other intermediary procurement offices, except as directed through their own internal policies.

If modifications are made to any order, these modifications must also route through the SEWP VI Program Management Office (PMO).

PROGRAM SUPPORT INFORMATION

1) **How to obtain a quote:**
   Contact Mr. Shawn Seffernick PM or Mr. Dan Carrai DPM.

2) **Policy and procedures information:**
   Contact Mr. Shawn Seffernick PM or Mr. Dan Carrai DPM.

3) **How to troubleshoot a problematic order:**
   Contact Mr. Shawn Seffernick PM or Mr. Dan Carrai DPM.
